Great one day, perfect the next!

Rotota Sun Club members enjoy the secluded shores of Lake Ohakuri, naturally a focal point for many club activities. A large grassy foreshore is perfect for sunbathing and watching those waterskiing, jetskiing and kayaking - and a concrete ramp makes it easy to launch your boat.

There are several short walking tracks that lead to the Akatarawa natural hot stream with a large pool at the top of a waterfall. These are beautiful walks and, if you're keen to squeeze through a rock crevasse, you can follow this stream back down to the lake.

This geothermal landscape spoils Rotota members with the luxury of a lakes edge thermal hot-tub - relax Rotota style!
